

# International Day of the Refugee Self-Guided Audio Tour of Lower Manhattan

## International Day of the Refugee

The United Nations created the International Day of the Refugee and across the world people will be gathering to learn about refugees and to raise awareness and support for vulnerable populations. This day was created to celebrate the U.S. commitment to the protection of refugees; and, to raise public awareness and funds to support representation of immigrant youth seeking protection.

## Safe Passage Project

Safe Passage Project has been recruiting, training, and mentoring pro bono lawyers to aid immigrant youth facing deportation since 2006. Safe Passage Project is now at the NY Immigration Court every week and is helping over 500 youths. Many of these young people have claims based on the International Convention Protecting Refugees and others have claims for child protection under both state and federal law.
